**Process:** In the first instance, the employee is to complete the Summative Review Form as best they can with reference to the Work Planning and Review Forms. Performance Outputs and Core Competencies are to be listed/described and a 'self-rating' given along with supplementary information where necessary. Note: under Performance Outputs, a separate rating is required for both the 'quantity' and 'quality' sections. When complete, the form is then submitted to their manager. The manager will review the form and make appropriate notes. A meeting between the manager and employee is then arranged to discuss the Summative Review Form in more detail and finalize ratings. The 'final rating' is to be approved and written down by the Manager.
