

The Standard Framework for Designing Curriculum  
(Developed as per section 3.8.8 of the Academic Regulations 2021)

1. Program Information
  - 1.1. Name of the Institute
  - 1.2. Title of the Program
  - 1.3. Duration and Mode of Study
  
2. Aims of the Program
3. General Objectives
4. Graduate Attributes
5. Module Structure

The \_\_\_\_ (duration and award of program, eg. Three-year diploma) program consists of \_\_\_\_ (structure of program, eg. one-year Common Foundation Course in the first year and following two years of specific course). The course consists of 2 semesters in each year. Each semester has 5 modules. Each module has 12 credits and each credit is equivalent to 10 notional hours of theory, 15 hours for laboratory and 20 hours for clinical practice.

The modules are as follows:

Year: \_\_\_\_\_ Semester: \_\_\_\_\_

Module Name	Module Code	Credit	Total Hours		
			Theory	Laboratory Practice	Clinical Practice
<b>Example:</b> Basic Musculoskeletal Principles.	BMP201	12(2-0-10)	20	0	200

6. Entry Requirement of the Candidates
7. Modules as per modular description as,

## 7.1. Module Information

7.1.1. Module Title

7.1.2. Module Code

7.1.3. Program Title

7.1.4. Credit Value

## 7.2. Objectives of the Module

## 7.3. Learning Outcomes

## 7.4. Assessment

7.4.1. Continuous Assessment

7.4.2. Summative Assessment

## 7.5. Subject Matter

<b>Credit / Weightage (%)</b>	<b>Content</b>	<b>Teaching &amp; Learning Strategies</b>	<b>Mode of Assessment</b>
<b>Theory</b>			
	1.		
	2.		
	3.		
<b>Laboratory Practice</b>			
	1.		
	2.		
	3.		
<b>Clinical Practice</b>			
	1.		
	2.		
	4.		
Total Credit: 12			

## 7.6. Reading List

7.6.1. Mandatory Reading List

7.6.2. Supplementary Reading List

8. Date of Validation

9. References.
